**BOARD OF COUNTY COMMISSIONERS
LAKE COUNTY, FLORIDA
OFFICE OF THE COUNTY MANAGER
AGENDA ITEM COVER SHEET**

DATE:	December 07, 2010	MEETING DATE:	January 04, 2011
TO:	Sanford A. Minkoff, Interim County Manager	ITEM TYPE:	Consent Agenda
BY:	Roseann Johnson	OTHER:	
SUBJECT:	Approval of Contract 11-0801 for Agricultural Chemicals		
DISTRICTS:			

RECOMMENDATION/REQUIRED ACTION:

The Board approve award of term and supply contract 11-0801 for various agricultural chemicals to various vendors for use by various entities as described in the background section below. Estimated fiscal impact for the County is \$50,000.00.

BACKGROUND SUMMARY:

On June 1, 2010 the Board approved an Inter-Local Agreement for Cooperative Purchasing involving Lake, Orange, Seminole, Volusia, Osceola, and Brevard counties. The Agreement provided for procuring activities within the counties to compete and award term and supply contracts for direct ordering by all participating public sector entities within the counties. The intention of the Agreement is to promote better pricing and service through consolidated purchasing. Lake County's Purchasing Office is serving as the lead agency in this particular commodity, based on its past support in this regard.

The Lake County Office of Procurement Services issued Invitation to Bid (ITB) 11-0801 under the Agreement for purchase of various agricultural chemicals by all participating Inter-Local entities. The ITB provided for an initial one year ordering term with four one year optional periods to support long term uniformity of product.

The ITB included a wide range of line items for a wide range of applications based on multiple County, multiple entity consolidated requirements. Award is being recommended to vendors that offered the lowest price for any stated item, and to all vendors that provided pricing for fertilizer given the many chemical compositions for that item.

The full bid tabulation is attached for information. Also attached is a listing of firms recommended for award by item. Upon BCC approval of the overall award, the procurement office will issue implementing purchase orders for any Lake County BCC needs. Other entities are responsible for issuance, and full administration (to include all payments), of their own purchase orders under the contract structure.

Actual annual expenditure under the awarded structure will vary by budget, need, and entity. The anticipated annual expenditure for Lake County BCC entities is \$ 50,000.00. This is estimated as any chemical or fertilizer needs cannot be determined at this time. The annual expenditure for all items and all entities under the overall contract structure is \$ 1,000,000.00. As a matter of note, the unit pricing received is considered to reflect the economies associated with large scale quantity purchasing.
